

AXRAC™

STUDIOMOUNT

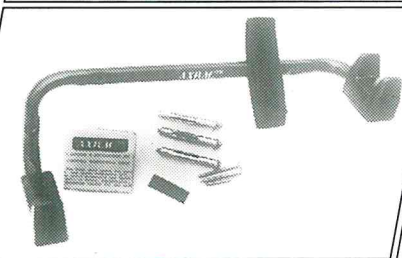

AXRAC™ STUDIOMOUNT gets your electric and acoustic guitars off the floor where most damage occurs, and frees more floor space for you and your equipment. No more hassles with cases and stands! Keep your guitars always ready to play!

FEATURES:

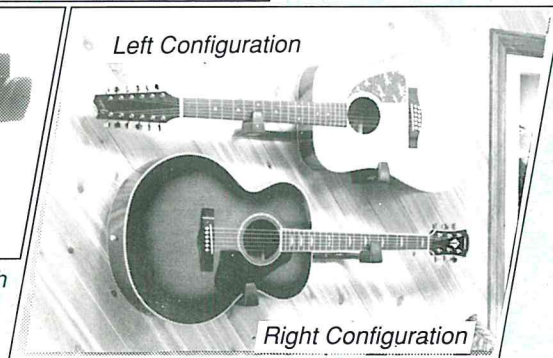

- Holds most solid* and all hollow body guitars, including headless, round back and bass designs.
- Comes in both left and right mounting configurations, allowing multiple stacking.
- Mounting bracket is a strong tubular steel arm with black scuff-resistant paint coating.
- Soft rubber body and neck grips protect instruments.
- Safety neck strap secures guitars in the AXRAC mounting arm.

- Simple-to-install hardware included, with rubber bumpers to further protect guitars.
- Specially designed for standard drywall.

*Not recommended for "V" shaped guitars.

Studiomount Comes With Wallmounting Hardware.

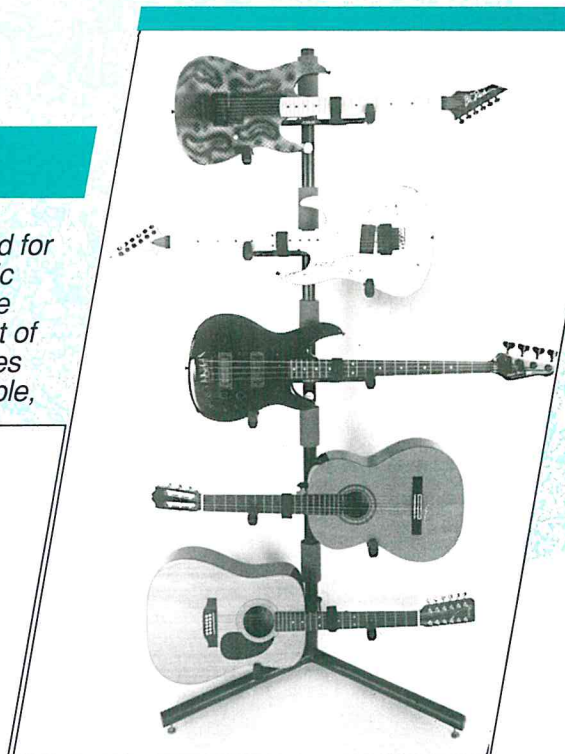

STUDIOSTAND

This multi-guitar stand holds up to five guitars horizontally. It is designed for home studio use for super-secure rack mounting of electric and acoustic guitars. Guitars are always ready to play, since they are supported in the "playing position". AXRAC STUDIOSTAND saves a tremendous amount of floor space, reduces damage by getting guitars off the floor and eliminates hassles with cases and single floor stands. The STUDIOSTAND is portable, too, so you can relocate it any time you wish to rearrange your equipment.

FEATURES:

- Easy-to-assemble tubular steel construction.
- Black hard coat paint finish.
- 7 foot height, with a very stable 3-legged, 40 inch pedestal.
- Level-adjusting foot pads.
- Holds up to 5 shock-mounted support arms with soft rubber guitar grips.
- Guitars rest against thick column pads for extra protection.

Studiostands have been used in professional studios and finer guitar shops for years and are now available for home studio use.
