850 lb. WLL

24" RIGGING BEAM

GridLink®

Rigging Beam with Lifting Points

Use this rigging beam as one of several components to build a load-rated rigging grid assembly. Choose from several pre-engineered rigging beams, joiners and suspension options that allow you to design and assemble your own grid in dozens of different configurations (see GridLink data sheet). This rigging beam may also serve as a spreader bar to suspend objects between two trusses.
