

Swiveling Cross Arm Kit

GridLink® Cross Arm Swivel Kit

The GridLink Cross Arm kit is part of the GridLink Rigging Beam System that provides up to 360° of horizontal rotation for loudspeakers and other objects from Rigging Beams and overhead grids.

The Cross Arm Kit is ideal for applications where a simple pan rotation is needed to aim a loudspeaker horizontally.

Tilt control is achievable through the addition of a standard fixed width U-Bracket or a Tilt Cable Kit.
